DESCRIPTION

Freestanding electric fryer on cabinet base with electronic temperature control, high productivity, in AISI 304 stainless steel. 20/10 gauge flush alignment top without flue apertures. Pressed AISI 304 stainless steel cooking tank, with radiused internal profile. Tank capacity 22 litres. Tanks with wide front expansion zone for oil and foam and extended cold zone for collection of food particles. Heating by means of a sheathed immersion-type heating element in AISI 304 stainless steel. The element can be rotated by over 90° using a special lifting hook to facilitate tank cleaning. Output modulation to optimise heating and efficiency. Melting cycle. Automatic cooking function to guarantee high quality fried products. The operator select one of the 30 available programs to choose the type, quantity, and storage temperature of the product to be fried. The electronic system automatically adapts the cooking cycle, making the necessary compensation according to the selection made. Control panel with 7-inch high-resolution Touch Screen with electronic control board for management of cooking temperature from 0 to 185°C with accuracy of ± 1°C, HACCP alarms, tank cleaning cycle, preheating function, maintenance at 100°C, and system diagnostics. Manual reset safety thermostat. Equipped with: 1 tank bottom filter; 1 chromed steel mesh to support cooking baskets; 2 chromed steel cooking baskets, size 1/2, with front handle in heatproof material; 1 tank lid; 1 extension for frontal drainage of tank. IPX5 water-resistant rating. Appliance equipped with stainless steel adjustable feet.
